Wildfire Prevention (Firewise) References on the Internet

Austin Fire Department Wildfire Division	 http://austintexas.gov/department/wildfire-prevention includes information about CWPP – Community Wildfire Protection Plan https://austinfirewise.bloomfire.com Web site with where AFD and Firewise advocates can post information; email Linda.Haynie@austintexas.gov to have posting privileges http://arcg.is/1OnWae Link to the wildfire hazard maps being used with CodeNEXT http://arcg.is/4rXii
	 Link to story map about AFD-provided shaded fuel breaks, with interactive map Protect My Home - Living in the Wildland Urban Interface Set of interactive maps depicting factors affecting wildfire risk Travis County Wildfire Hazards
Austin Water Utility	 Interactive map showing overall levels of wildfire risk in the county http://austintexas.gov/rxfire discusses the wildland-urban interface and how prescribed fires are used on some of Austin Water's properties
City of Austin Watershed Protection Department	 http://www.austintexas.gov/wildfireenvirobmps Describes best practices for managing the environment, with respect to preventing wildfires, dealing with wildfires, and recovering after them Has a nice set of material about zones 1, 2, 3 on the home page
Travis County Fire Marshal	 http://www.co.travis.tx.us/fire_marshal/ information about burn bans in effect, emergency service districts, general education about fire and fire prevention
City of Austin - sustainable landscapes	 http://austintexas.gov/department/grow-green includes a list of landscape professionals who have completed the City's training on sustainable landscaping; the training included some preparation on landscaping in the Defensible Space around homes, the area up to 100 feet from our homes
Joint Travis County and City of Austin Plans and Actions	 http://www.austintexas.gov/wildfireprotectionplan Austin/Travis County Community Wildfire Protection Plan developed as a joint effort of the Joint Wildfire Task Force, composed of departments and agencies within the City of Austin and Travis County; being implemented now by working groups of the Austin-Travis County Wildfire Coalition (website coming) http://austin.maps.arcgis.com/apps/View/index.html?appid=ac1072648f9a407c8170a6c254bc540d Or use this: https://tinyurl.com/AustinTravisCountyMaps Interactive map of Travis County, which you can use to see different layers of information about specific portions of Austin and Travis County
Firewise resources	 http://firewise.org/ National Fire Protection Association web site with many good brochures and guidance, including information on how to become a Firewise Site (was originally known as Firewise Community) Includes a set of fact sheets that are research based at this link: https://www.nfpa.org/Public-Education/By-topic/Wildfire/Firewise-USA/Firewise-

1

	 USA-Resources/Research-Fact-Sheet-Series http://texasfirewise.org Texas A&M – Texas Forest Service site https://codes.iccsafe.org/public/document/toc/556/ International WUI code, being implemented in Austin and elsewhere
Austin Firewise Alliance	 https://tinyurl.com/AllianceDoc Collection of reference materials (such as acronym glossary), templates for plans and tracking Firewise investments, examples of Firewise Site plans and evacuation plans, etc. Compilation of the neighborhoods participating in the Alliance
Ready, Set, Go activities	http://wildlandfirersg.org/
information on how to be prepared for wildfire	 http://fireadapted.org/ overall goal – how to keep the fire low and away from the home has assessments and checklists for the homeowner
Emergency notification system and special access	 CAPCOG – Capital Area Coalition of Governments - Info about emergency notification system https://warncentraltexas.org/ to register for cell phones, email, and text notifications (landlines are covered by 911 database) https://www.dps.texas.gov/dem/stear/public.htm To register (annually) someone who needs help during emergency evacuations (STEAR – State of Texas Emergency Assistance Registry)
Ratings of plants with respect to being firewise	 http://www.fire.sref.info/selector/plant-list http://www.diablofiresafe.org/tolerance.html (lists favorable and unfavorable)
for maps with fire intensity information	 http://www.texaswildfirerisk.com/ aka TXWRAP maps static displays of wildfire risk throughout the area, with ability to specify 78731 and then focus on our area using the Public Viewer segment shows potential intensity based on vegetation patterns and home density; does not reflect current environmental conditions
Using mulch	 http://wildfire.blog.nfpa.org/2013/04/which-mulch-is-the-right-mulch-research-on-mulch-and-fire-helps-you-decide.html= bottom line: if it's close to the home, use gravel or rock or brick chips
Red Cross guidance on preparation for wildfire	 http://www.redcross.org/prepare/wildfire checklist for you to consider here (also on NWACA web site): http://www.redcross.org/images/MEDIA_CustomProductCatalog/m4340149_Wildfire.pdf
Firewise materials – free /some in bulk sets	• from NFPA – National Fire Protection Association – Wildfire Safety catalog http://www.nfpa.org/catalog/category.asp?category%5Fname=Firewise%3A+Wildfire+ Safety&Page=1&cookie%5Ftest=1.
