

HELP US IMAGINE 2045- How Will You Get Around?

CAMPO, the Capital Area Metropolitan Planning Organization, seeks your input to envision a future transportation network for Central Texas that is safe, reliable, well-connected, and equitable.

The answer to addressing future traffic congestion and maintaining a high quality of life doesn't lie in just one mode of transportation or solution, which is why CAMPO is creating a comprehensive, multimodal 2045 Plan that includes improved roads, transit, bicycle and pedestrian paths, and changes to commuting patterns.

Learn more and take a survey: Visit the CAMPO 2045 website via campotexas.org/get-involved/ to find more information about the CAMPO 2045 Plan and complete a survey about your travel habits and needs.

Stay plugged in: Consideration and adoption of the CAMPO 2045 Plan is a years-long process and includes two phases of public outreach and comment periods. The first phase runs October 21 - November 30, 2019. The second phase of public outreach and commenting will take place in early 2020.

CAMPO events and presentations: View upcoming events at campotexas.org/calendar/, email comments@campotexas.org, or call the CAMPO office at 512-215-8225 to request materials or to schedule a presentation for your local community group.

We look forward hearing from you!
