* can add an ADU to any but the Townhouse; units cannot exceed total allowed # units				** rear setback is 5 ft for ADU with max height of 15 ft			*** Can have up to 4 more units if using affordable housing bonus program; can also increase height by 10 ft and increase FAR					
ADU regulations	can be 1100 sq.ft. or 15% of lot size, whichever is smaller; main house and ADU separated by 10 feet or more											
Parking	add 1 space for ADU unless within 1/4 mile of transit			No parking required for ADU; otherwise 1 per housing unit								
	General Mapping Equivalence											
	SF-2 and SF-3 get mapped to R2A											
	some SF-3 get mapped to R4, based on current transit status											
	Notable change: Minimum current lot size for most SF lots = 5,750 sq.ft.; in proposed code, 5,000 sq.ft. minimum allows more duplexes to be built. Deed restrictions may apply, but residents must defend those restrictions
