

# Smokey the Bear Needs You

*To help us clean up Barrow Nature Preserve*

**Saturday May 16 9:00 AM to 12:00 PM**

**7512 Step Down Cove**

Wildfires are increasing across the United States. Austin is one of the most vulnerable cities and Northwest Hills is one of its most vulnerable areas. Our beautiful hills and trees include areas of highly flammable dead trees, brush, and vegetation that put all our homes at risk.

To safeguard our neighborhood, a community cleanup project is planned to clean up Barrow Nature Preserve.

**Sign up at [nwaca.org](http://nwaca.org).**

**Please bring work gloves and wear long sleeves, long pants, closed-toe shoes, and sunscreen. Tools, trash bags, snacks and water will be provided.**

Hosted by The NWACA Firewise Committee with Austin Parks and Recreation, the Austin Parks Foundation, and Austin City Council Member Marc Duchon.
